## Profile

Hi I'm Ashish Uniyal

- I had around 4 years of experience in Sales as a Customer Representative. Responsible for helping people in making their buying decision and everything that follows, like Documentation and Vehicle delivery.
- Due to being a technophile, I had always felt anxious over the fear of missing out on the opportunities, this new age of technology provides.
- I'm a self-taught, self-motivated web developer looking for a chance to contribute.

## Projects

### 1. Anime Love

- It's a website for anyone who is interested in anime. It provides a great source of information like image, name, episodes and links to the streaming services.
- It was created using HTML5, CSS3, Bootstrap3, JavaScript, jQuery and the Gogoanime API.

### 2. Portfolio

- It is a website created to showcase my skills, connect with new and amazing people and display projects.
- The single page website is made entirely by using only HTML5 and CSS3.
